EXPERIENCE

Accenture Programmer

September 2009 – Present

<http://www.accenture.com>

Accenture is a global management consulting, technology services and outsourcing company helping clients become high-performance businesses and governments. I work in Accenture as a Programmer in .NET domain, dealing primarily with C# and ASP.NET technologies.

In my current project, I am involved in mostly innovative work and have developed on various technologies and platforms, including development on Add-In Express (MS Office addins), iPhone, Facebook, OAuth-based web apps, and jQuery.

PROJECTS

Granular Linux Project

December 2006 – Present

Founder and Team Lead

<http://www.granularproject.org/>

Granular is a **Linux**-based operating system, also called a **distribution**. It is based on PCLinuxOS and aimed at providing an easy-to-use, stable, and functional Linux experience to the end users. It has a global user base and a good reputation among other Linux distributions.

Computer Science Department Website

June 2008 – July 2008

For NIT, Jalandhar

<http://nitj.ac.in/cse/>

This website was developed as part of my industrial training. The website features good overall

design, robust security checks, full-featured and easy-to-use content management, and news management system.

Survey Web App For Accenture

December 2008 – January 2009

A feature-rich survey creation tool. Built using the latest web technologies – PHP, AJAX and MySQL – it was designed as a Web 2.0 website. The project was done under the supervision of **Mr. Kenneth Corless**, Executive Director, Business Applications, Accenture.

ShareNet For NIT, Jalandhar

March 2009 – May 2009

A Java-based LAN P2P file sharing application that follows a client-server model using centralized peer-to-peer approach for file sharing. Done as the major project during final semester in B.Tech.

Other Projects

<http://www.anuragbhandari.com/showcase/>

Stuff I did in my free time or as small projects or just to test my capabilities:

- ✓ **MyBlog** – a web blog engine/platform
- ✓ **Granular Package Archive** – backend and interface for easy browsing of package repository
- ✓ **Community Forum** – a simple and fast forum software
- ✓ **Jumbled Words Game** – a graphical game done in Python
- ✓ **Albums Database** – jQuery-based AJAX application to submit and search music albums

HOBBIES & INTERESTS

- **Hobbies:** Reading, Blogging, Gaming, Movies, Sports, Philately, Internet Surfing.
- **Interests:** Web Development, Operating Systems, Troubleshooting and Administration, Databases, Software Development.
